This document constitutes a base prospectus for the purposes of Article 8 of Regulation (EU) 2017/1129 (the "**Prospectus Regulation**") for the purposes of giving information with regard to the issue of notes (the "**Notes**") by Essity Aktiebolag (publ) ("**Essity**") or Essity Capital B.V. ("**Essity Capital**") (each an "**Issuer**" and, together, the "**Issuers**") under the Euro Medium Term Note Programme (the "**Programme**") described herein (the "**Base Prospectus**"). Notes under the Programme may be issued by either Issuer. Notes issued by Essity Capital will be unconditionally and irrevocably guaranteed by Essity (in such capacity, the "**Guarantor**") pursuant to a deed of guarantee dated 7 May 2021 (the "**Deed of Guarantee**").

Any Notes issued under the Programme on or after the date of this Base Prospectus are issued subject to the provisions described herein. This does not affect any Notes already in issue. Pursuant to the Programme, an Issuer may from time to time issue Notes denominated in any currency agreed between such Issuer and the relevant Dealer(s) (as defined below).

The maximum aggregate nominal amount of all Notes from time to time outstanding under the Programme will not exceed Euro 6,000,000,000 (or its equivalent in other currencies calculated as described in the Programme Agreement described herein), subject to increase as described herein. The Notes may be issued on a continuing basis to one or more of the Dealers specified under "*General Description of the Programme*" and any additional Dealer appointed under the Programme from time to time by the Issuers (each a "**Dealer**" and together the "**Dealers**"), which appointment may be for a specific issue or on an ongoing basis. References in this Base Prospectus to the "**relevant Dealer**" shall, in the case of an issue of Notes being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to subscribe such Notes.

An investment in Notes issued under the Programme involves certain risks. For a discussion of these risks see "Risk Factors".

This Base Prospectus has been approved by the Luxembourg *Commission de Surveillance du Secteur Financier* (the "**CSSF**") as a base prospectus issued in compliance with the Prospectus Regulation for the purpose of giving information with regard to the issue of Notes under the Programme. The CSSF is the Luxembourg competent authority for the purposes of the Prospectus Regulation and the Luxembourg Law dated 16 July 2019 relating to prospectuses for securities, as amended (the "**Prospectus Law**"). By approving this Base Prospectus in accordance with Article 6(4) of the Prospectus Law, the CSSF gives no undertaking as to the economic or financial soundness of any transaction or the quality and solvency of either of the Issuers or the Guarantor.

The CSSF only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such an approval should not be considered as an endorsement of either of the Issuers or the Guarantor nor as an endorsement of the quality of the Notes that are the subject of this Base Prospectus. Investors should make their own assessment as to the sustainability of investing in such Notes.

Application has been made to the Luxembourg Stock Exchange for Notes issued under the Programme to be listed on the Official List of the Luxembourg Stock Exchange and to be admitted to trading on the regulated market of the Luxembourg Stock Exchange. The Luxembourg Stock Exchange's regulated market is a regulated market for the purposes of the Markets in Financial Instruments Directive 2014/65/EU (as amended, "**MIFID II**"). Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and any other terms and conditions not contained herein which are applicable to each Tranche (as defined under "*Terms and Conditions of the Notes*") of Notes will be set out in a final terms document (the "**Final Terms**") which, with respect to Notes to be listed and admitted to trading on the Luxembourg Stock Exchange, will be filed with the CSSF on or before the date of issue of the Notes of such Tranche.

Pursuant to Articles 12(1) and 21(8) of the Prospectus Regulation, this Base Prospectus will remain valid until the expiry of 12 months from the date hereof, that being 7 May 2021. Consequently, the obligation to supplement this Base Prospectus in the event of significant new factors, material mistakes or material inaccuracies will not apply once this Base Prospectus is no longer valid. This Base Prospectus will be published in electronic form on the website of Essity (<https://www.essity.com/investors/debt-market/debt-programmes>).

The Programme provides that Notes may be listed or admitted to trading, as the case may be, on such other or further stock exchange(s) or markets as may be agreed between the relevant Issuer and the relevant Dealer(s). The Issuers may also issue unlisted Notes and/or Notes not admitted to trading on any market. The relevant Issuer may agree with the relevant Dealer(s) that Notes may be issued in a form not contemplated by the Terms and Conditions of the Notes herein, in which event a supplement to this Base Prospectus, if appropriate, will be made available which will describe the effect of the agreement reached in relation to such Notes.

Essity has been assigned a Baa1 long-term senior unsecured rating with a stable outlook by Moody's Deutschland GmbH ("**Moody's**") and a BBB+ long-term senior unsecured rating with a stable outlook by S&P Global Ratings, acting through S&P Global Ratings Europe Limited ("**Standard & Poor's**"). Series of Notes issued under the Programme may be rated by Moody's and/or Standard & Poor's.

Moody's and Standard & Poor's are established in the European Economic Area and are registered under Regulation (EC) No. 1060/2009 on credit rating agencies (the "**EU CRA Regulation**"). Restrictions on distribution

The Notes and the Guarantee of the Notes have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States, and Notes in bearer form are subject to U.S. tax law requirements. The Notes may not be offered, sold or (in the case of Notes in bearer form) delivered within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act ("**Regulation S**")) except in certain transactions exempt from the registration requirements of the Securities Act (see "*Subscription and Sale*").

This Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Base Prospectus and the offer or sale of Notes may be restricted by law in certain jurisdictions. The Issuers, the Guarantor and the Dealers do not represent that this Base Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuers, the Guarantor or the Dealers which is intended to permit a public offering of any Notes or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus or any Notes may come must inform themselves about, and observe, any such restrictions on the distribution of this Base Prospectus and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Base Prospectus and the offer or sale of Notes in the United States, the European Economic Area, the Kingdom of Sweden ("**Sweden**"), the Netherlands, the United Kingdom ("**UK**"), Japan, the PRC (as defined below) and Hong Kong (see "*Subscription and Sale*").

Product Governance under MiFID II

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

The Final Terms in respect of any Notes may include a legend entitled "*MiFID II Product Governance*" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

Product Governance under UK MiFIR

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR product governance rules set out in the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

The Final Terms in respect of any Notes may include a legend entitled "*UK MiFIR Product Governance*" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any distributor should take into consideration the target market assessment; however, a distributor subject to the UK MiFIR Product Governance Rules is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS

If the Final Terms in respect of any Notes includes a legend entitled "*Prohibition of Sales to EEA Retail Investors*", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. No key information document required by Regulation (EU) No 1286/2014 (the "**EU PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.

PROHIBITION OF SALES TO UK RETAIL INVESTORS

If the Final Terms in respect of any Notes includes a legend entitled "*Prohibition of Sales to UK Retail Investors*", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the UK. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**"); or (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

Benchmarks Regulation

Interest payable on Floating Rate Notes will be calculated by reference to one of LIBOR, EURIBOR or STIBOR as specified in the relevant Final Terms. As at the date of this Base Prospectus, the European Money Markets Institute (as administrator of EURIBOR) (the "**EMMI**") and the Swedish Financial Benchmark Facility (as administrators of STIBOR) (the "**SFBF**") are included in ESMA's register of administrators under Article 36 of the Regulation (EU) No. 2016/1011 (the "**Benchmarks Regulation**") and ICE Benchmark Administration Limited (as administrator of LIBOR) is not included in ESMA's register of administrators under the Benchmarks Regulation. As far as the Issuer is aware, the transitional provisions in Article 51 of the Benchmarks Regulation apply, such that ICE Benchmark Administration Limited is not currently required to obtain authorisation/registration (or, if located outside the European Union, recognition, endorsement or equivalence).

Product Classification Pursuant to Section 309b of the Securities and Futures Act (Chapter 289 Of Singapore)

The applicable Final Terms in respect of any Notes may include a legend entitled "*Singapore Securities and Futures Act Product Classification*" which will state the product classification of the Notes pursuant to section 309B(1) of the Securities and Futures Act (Chapter 289 of Singapore) (as amended, the "**SFA**"). The Issuer will make a determination in relation to each issue about the classification of the Notes being offered for purposes of section 309B(1)(a). Any such legend included on the applicable Final Terms will constitute notice to "relevant persons" for purposes of section 309B(1)(c) of the SFA.

Certain definitions

In this Base Prospectus, references to "**Issuer**" are to Essity Aktiebolag (publ) or Essity Capital B.V., as the case may be, in its capacity as the Issuer of a particular Series of Notes under the Programme and references to the "**relevant Issuer**" shall be construed accordingly.

All references in this document to "**SEK**" refer to Swedish kronor. In addition, references to a "**Member State**" are references to a Member State of the European Economic Area, all references to "**U.S. dollars**" refer to United States dollars, references to "**Sterling**" refer to pounds sterling, references to "**Yen**" refer to Japanese yen, references to "**EUR**", "**euro**", "**Euro**" and "**€**" refer to the currency introduced at the start of the third stage of European economic and monetary union, and as defined in Article 2 of Council Regulation (EC) No 974/98 of 3 May 1998 on the introduction of the euro, pursuant to the Treaty on the Functioning of the European Union (the "**EU**"), as amended, and references to "**CNY**" and "**Renminbi**" are to the lawful currency of the People's Republic of China.

Ratings

Tranches of Notes issued under the Programme may be rated or unrated. Where a Tranche of Notes is rated, such rating will not necessarily be the same as the rating(s) described above or the rating(s) assigned to Notes already issued. Where a Tranche of Notes is rated, the applicable rating(s) will be specified in the relevant Final Terms. Whether or not each credit rating applied for in relation to a relevant Tranche of Notes will be (1) issued or endorsed by a credit rating agency established in the EEA and registered under the EU CRA Regulation or by a credit rating agency which is certified under the EU CRA Regulation and/or (2) issued or endorsed by a credit rating agency established in the UK and registered under Regulation (EU) No 1060/2009 on credit rating agencies as it forms part of domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (the "**UK CRA Regulation**") or by a credit rating agency which is certified under the UK CRA Regulation will be disclosed in the Final Terms.

In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the EEA and registered under the EU CRA Regulation or (1) the rating is provided by a credit rating agency not established in the EEA but is endorsed by a credit rating agency established in the EEA and registered under the EU CRA Regulation or (2) the rating is provided by a credit rating agency not established in the EEA which is certified under the EU CRA Regulation. In general, UK regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the UK and registered under the UK CRA Regulation or (1) the rating is provided by a credit rating agency not established in the UK but is endorsed by a credit rating agency established in the UK and registered under the UK CRA Regulation or (2) the rating is provided by a credit rating agency not established in the UK which is certified under the UK CRA Regulation.

Stabilisation

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) acting as the Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager(s)) in the applicable Final Terms may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager(s)) in accordance with all applicable laws and rules.

The Issuers and the Guarantor believe that the following factors may affect their ability to fulfil their obligations under Notes issued under the Programme. All of these factors are contingencies which may or may not occur and the Issuers and the Guarantor are not in a position to express a view on the likelihood of any such contingency occurring.

In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

The Issuers and the Guarantor believe that the risks described below represent the principal risks inherent in investing in Notes issued under the Programme, but the inability of the Issuers or the Guarantor (as applicable) to pay interest, principal or other amounts on or in connection with any Notes may occur for other unknown reasons. Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision.

A. Factors that may affect the relevant Issuer's and the Guarantor's (as applicable) ability to fulfil its obligations in respect of Notes issued under the Programme

Risks relating to the Business of the Group

The Group faces competition in all its markets

Essity and its consolidated subsidiaries (the "**Group**") experiences considerable competition for sales of its products and services in each of its business areas. Although the nature of the markets and the number and size of major competitors vary across its business areas, the Group has several major competitors in each business area in which it operates, some of which are larger than the Group entity operating in that business area. The principal methods and elements of competition in various areas of the Group's business include brand recognition and loyalty, product innovation, quality and performance, price, service, proximity to customers and distribution capabilities. In addition, the Group relies on the development and introduction of new or improved products as a means of achieving and/or maintaining category leadership. Inherent risks in the Group's competitive strategy include uncertainties concerning trade and customer acceptance, the effects of consolidation of retailers and other customers and competitive reaction. In recent years, digitalisation has broadened the Group's competitive landscape in digital products and solutions, new digital business models and new players, such as start-ups and technology companies that now compete with the Group in the field of hygiene and health. Competitive pressures could reduce revenue and have an adverse impact on the Group's financial results.

Impact of substitutes

There is a risk that other product solutions (i.e. substitutes) may replace products that are included in the Group's offering and thereby reduce sales. Such product solutions may involve different products with a similar function, such as cloth diapers, cloth rags for household or industrial cleaning, or completely different solutions to the needs of customers and consumers. The issue of substitutes is also linked to changes in the patterns and attitudes of customers and consumers that affect demand for certain products and thus profitability. Any reduction in sales as a result of substitutions or competing products may have a material adverse effect on the operations and financial performance of the Group.

Costs of input goods

Raw materials and other input goods account for a significant part of the Group's total costs. The market price of many of the input goods used in the manufacture of the Group's products fluctuates over time. Any significant fluctuations and increases in the price of raw materials and input goods could have a material adverse effect on the earnings and financial performance of the Group.

Changes in the price of the Group's products

Movements in the market price of the Group's products could create major fluctuations in the profitability of the product(s) in question. In such a circumstance, profitability may be further affected by changes in costs for the Group. Changes in the price of the Group's products may have a negative impact on the overall Group's profits.

Capacity additions may cause price pressure on the Group's products

Demand for many of the products offered by the Group remains relatively stable. However, if the Group's competitors were to increase their production capacity and also sell such products, the increased level supply in the market may lead to the Group experiencing pricing pressures to remain competitive.

GDP trend and economic conditions

The Group's volume of output of products is linked to GDP and related factors, including industrial production, in countries representing the Group's main markets. Movements in the GDP trend influence demand for some of the Group's products. Any reduction in demand for the Group's products as a result of adverse movements in GDP in the Group's main markets may have a material adverse effect on the operations and financial performance of the Group.

Global health risks

Extensive outbreaks of disease (including, for example, Covid-19) entail risks for the Group's operations, not least in terms of the risks posed to our employees' health and safety and their ability to carry out their work. Political decisions to limit the spread of disease, such as lockdowns, more stringent border security measures or other restrictions may also cause disruptions at production facilities, in the supply chain or for a third party's ability to fulfil its obligations toward the Group. More extensive outbreaks of disease may also result in a temporary fall in demand for some of our products, changed consumer behaviour and preferences and changes in the economic conditions in the countries where we conduct operations.

Disease outbreaks and global health risks could potentially also lead to an increase in healthcare costs. This, in turn, may result in limitations being imposed on subsidised prescription of the Group's products in Incontinence Products and Medical Solutions and an accelerated shift toward self-management of health and self-financing of these products.

Changes in demographics, consumer behaviour and preferences

Changing demographics and lifestyle alter demand from customers and consumers. There is a risk of a decline in demand for the Group's products if the Group does not successfully satisfy customer and consumer needs and adapt our innovation program, product portfolio, sales channels, brand-building activities and communication accordingly.

The global population is growing, entailing that the age structure in many countries is moving toward a larger share of the population in the category 65 years and over. At the same time, younger generations of consumers have preferences and behaviours that impact what and how they shop, for example, in the form of more stringent demands on convenience, transparency, sustainability and social responsibility. This has given rise to demand for new products, services and solutions, such as subscription services, recycling solutions and a greater emphasis on a sustainable choice of materials.

Risks relating to the Operations of the Group

Risks at plants

The Group has approximately 90 production facilities in some 30 countries and many of these conduct continuous production. Fires, machinery breakdowns, pandemics and other types of harmful incidents could damage the plant in question and also cause delivery problems. Any disruptions or harmful incidents at the Group's plants, or the time and cost of remedying such incidents or damage, may have a material adverse effect on the operations and financial performance of the Group.

Dependence on major customers and distributors

The retail trade is the Group's single largest customer group and thus the performance of the Group in this market has considerable impact on the Group's overall performance. Approximately 61 per cent. of the Group's sales are made to the retail trade, through both the Group's brands and retailers' brands. Members of the Group also uses other distributors or retailers. The success of such distributors or retailers could impact the Group's overall performance. A general consolidation process is taking place in several of the Group's sales channels, thus increasing dependence on individual customers. In the retail trade, the prevailing trend is towards increased concentration, which has mainly resulted in fewer retail companies at

a national and regional level. The Group also uses distributors, mainly for professional hygiene. A very large number of distributors are active in this segment and the international concentration is relatively low. In 2020, the Group's ten largest customers accounted for about 23 per cent. of the Group's overall sales, most of these customers were retail companies. The ten largest customers also include some large distributors of professional hygiene. The general consolidation and increase in dependence could result in negative consequences if the Group does not fulfil the demands imposed.

Dependence on suppliers

The Group is dependent on a large number of suppliers for the supply of key input goods, such as waste paper, pulp and energy, such as electricity, natural gas and petroleum-based fuels. The Group has a number of suppliers for essentially all important input goods and continuously enters into supply agreements with several suppliers on various durations. The Group also has intensive cooperation with selected suppliers that covers the development of materials and processes. The loss of key suppliers could result in costs for the Group and problems in manufacturing. Suppliers could also cause problems for the Group through non-compliance with applicable legislation and regulations or by otherwise acting in an unethical manner.

Expansion into new markets

The sale of the Group's products in new markets can be managed by agents or by the Group's own sales company. When it has been decided to conduct manufacturing in the local market, this may be carried out through a joint venture in cooperation with other owners or by the Group acquiring or forming a wholly owned company. Prior to initiating operations, the Group conducts a feasibility study and a risk analysis of issues related to legal requirements, due diligence of existing companies, and assessments of the business climate and common business practices and ethics. However, if the conditions differ from those in already established markets, this expansion could involve new and increased risks for the Group.

Employee-related risks

The Group must have access to skilled and motivated employees and safeguard the availability of competent managers to achieve established strategic and operational objectives. It is therefore important that the Group is successful in attracting and retaining employees with appropriate skills in the future. If this is not possible, this could have an adverse effect on its business and brand.

Information and IT risks

The Group relies on IT systems in its day-to-day operations. Disruptions or faults in critical systems, as well as the increasing prevalence of cyber-attacks, risk having a direct impact on production and important business processes. These risks grow in an increasingly technically complex and interlinked world. Any errors in the handling or maintenance of the Group's IT systems and/or disruptions or faults to its IT services may have a material adverse effect on the operations and financial performance of the Group.

Risks relating to the acquisition of new businesses

Success in the Group's acquisition strategy depends on several factors, such as the ability to identify suitable businesses for acquisition, reach agreements on acceptable acquisition terms and to finance such acquisitions. It is possible that the Group's future acquisitions cannot be carried out on favourable terms. It is also possible that, in the future, there will not be a sufficient number of attractive targets available for acquisition or that the Group will not be able to secure necessary financing.

There are also business risks, tax risks and economic risks associated with acquiring and integrating companies into the Group's existing business operations, for example, but not limited to, exposure to unknown obligations as well as acquisition and integration costs that are higher than expected.

It is possible that the Group's assessments and assumptions regarding possible or implemented acquisitions (including assumptions regarding synergies) will prove to be incorrect or that obligations, contingent liabilities or other risks previously unknown to the Group might arise. Likewise, the Group's assessments and assumptions concerning the possibilities and prospects for organic growth may prove to be incorrect and obligations, unforeseen events or other risks that were unknown to the Group may arise.

The Group might also divest operations that no longer fit in with the Group's strategy. Several factors affect success in any divestment, for example the Group's ability to identify a buyer and the Group's ability to

negotiate acceptable terms. In addition, it is possible that the Group might be required to provide certain warranties and undertakings in connection with such divestment. In the future the Group may find it difficult to divest operations or assets or might fail to successfully complete such divestments on terms favourable for the Group.

Financial Risks

The business of the Group may be adversely affected by liquidity and refinancing risk

Liquidity and refinancing risk is the risk that the Group is unable to meet its payment obligations as a result of insufficient liquidity or difficulty in raising new loans.

If the Group is unable to obtain sufficient credit, either due to banking or capital markets conditions generally, or due to factors specific to its business, the Group may not have sufficient cash to develop new projects, fund acquisitions or meet ongoing financing needs, which in turn could materially and adversely affect the revenues, operating results, cash flows and financial condition of the Group.

Risks relating to adverse global economic conditions

Adverse and volatile economic conditions can limit the Group's financial performance in terms of anticipated revenues and costs and can affect the ability of the Group to implement planned projects. Ratings agencies and industry analysts are likely to take such conditions into account when assessing the business and creditworthiness of the Group, and any adverse determinations, including ratings downgrades, may make it more difficult for the Group to raise capital in the future and may adversely affect the market price of the Notes issued by the relevant Issuer.

In particular, concerns about credit risk (including that of sovereigns) have intensified during the last few years. The large sovereign debts and/or fiscal deficits of a number of countries, including a number of European countries as well as the United States of America, have raised concerns regarding the financial condition of financial institutions, insurers and other corporates (i) located in these countries; (ii) that have direct or indirect exposure to these countries; and/or (iii) whose banks, counterparties, custodians, customers, service providers, sources of funding and/or suppliers have direct or indirect exposure to these countries. A default by, or a significant decline in the credit rating of, one or more sovereigns or financial institutions could cause severe stress generally in the global financial system and could adversely affect the markets in which the Group operates and the businesses and economic condition and prospects of the Group's counterparties, customers, suppliers or creditors, directly or indirectly, in ways which are difficult to predict. The impact of these conditions could be detrimental to the relevant Issuer, the Guarantor and the Group and could adversely affect the Group's business, operations and profitability, its solvency and the solvency of its customers, the value and liquidity of its assets and liabilities, the value and liquidity of the Notes, and/or the ability of the relevant Issuer or the Guarantor to refinance its current financial obligations and/or meet its obligations under the Notes and/or its debt obligations more generally.

Credit risk

The Group is exposed to credit risk, i.e. the risk of losses due to failure to meet payment obligations by the Group's counterparties in financial agreements or by customers. Customer accounts receivable is subject to credit checks of customers using credit rating companies and regular monitoring of credit limits and are recognised at the amount that is expected to be paid based on an individual assessment of each customer. Credit risk exposure under the Group's financial agreements includes exposure against counterparties in derivative instruments, leasing transactions and other financial investments and arrangements. The failure by customers and counterparties under financial agreements to fulfil payment obligations towards a member of the Group may have a negative effect on the overall Group's cash flow and profit.

Rising cost of energy or unavailability of energy may impact the Group's results

The Group's manufacturing operations utilise electricity, natural gas and petroleum-based fuels. The Group's contracts with energy suppliers vary as to price, payment terms, quantities and duration. Its energy costs are also affected by various market factors, including the availability of supplies of particular forms of energy, energy prices and local and national regulatory decisions. There can be no assurance that the Group will be fully protected against substantial changes in the price or availability of energy sources.

Exchange rate fluctuations could negatively affect our financial condition and results of operations

The Group is exposed to exchange rate risk in several ways. Exchange rate movements in export revenues and import expenses could negatively impact the Group's operating profit and the cost of non-current assets.

The currencies of the Group's revenues do not fully match the currencies of its operating costs. Furthermore, members of the Group, including Essity, have their financial statements reported in Swedish kronor but only a portion of its operations and assets are located in Sweden. In addition, changes in exchange rates can affect the relative competitive position of the Group's various plants and mills.

Interest rate risk

Interest rate risk is defined as the risk of adverse impact on the Group's financial position, including its income and economic value, due to interest rate movements. In addition, changes in the macro-economic environment may have a significant impact on the movement of interest rate curves for different currencies that the Group is exposed to. Adverse movements in interest rates and the currencies which the Group is exposed to may have a material adverse effect on the financial condition of the Group.

Legal and Regulatory Risks

Environmental impact and climate change

The Group's operations have an impact on air, water, land and biological processes and the Group is subject to a wide variety of environmental regulations in multiple jurisdictions around the world. Compliance with these rules and regulations at the federal, state, provincial and local levels is an important aspect of the Group's ability to continue its operations. The Group cannot guarantee that it will not incur significant additional environmental costs and liabilities in the future (which also may include paying for environmental restoration). In addition, the Group cannot assure that the businesses it has acquired, prior to its acquisition, always complied with all applicable environmental regulations. Also, countries could adopt tighter, more stringent environmental laws, regulations and enforcement policies than apply at present.

Legal risks and political decisions

The Group is affected by political decisions and administrative regulations in the many countries in which the Group conducts operations. These relate to general regulations, such as taxation and financial reporting and more specific regulations, such as licensing requirements under applicable environmental legislation and the reimbursement of expenses in the healthcare system. New legislation and other regulation in various countries could negatively impact the Group. Legal processes can be protracted and costly.

Occurrence of unethical business practices and human rights violations

The Group's operations and sales are conducted in approximately 150 countries and in sectors and environments where unethical business practices and violations of human rights may occur. If the Group is associated with such practices, this may damage the Group's reputation. The Group may also incur fines and other legal sanctions. The Group works together with various business partners, such as customers, distributors, partners in joint ventures and suppliers. The working practices of such partners can increase the risk of being associated with such practices.

B. Risks related to the structure and features of a Series of Notes

The position of Essity Aktiebolag (publ) in the Group

Essity is the holding company of the Group and is therefore dependent on the income it receives from its operating subsidiaries in the form of notes, dividends or other payments to it as a shareholder. Any Notes issued by Essity and the rights under the Guarantee of the Notes (if applicable) will therefore be structurally subordinated to creditors (including trade creditors) and shareholders of subsidiaries of Essity.

Essity Capital is a special purpose vehicle and investors should therefore consider the financial condition and liquidity of Essity and the Group in addition to that of Essity Capital

As at the date of this Base Prospectus, Essity Capital is a company within the Group without significant business activities or holdings and accordingly Essity Capital's ability to pay interest and repay principal in respect of its borrowings, including the Notes issued by it, depends upon the financial condition and liquidity of Essity and the Group. Notes issued by Essity Capital will be unconditionally and irrevocably guaranteed by Essity. The Group further intends to provide Essity Capital with liquidity by way of intra-group arrangements or other transfers of value in order for Essity Capital to fulfil its obligations under the Notes issued by it. However, if the Group does not provide liquidity, or due to other circumstances, conditions, laws or regulations is prevented from providing liquidity to Essity Capital, there is a risk that Essity Capital will not fulfil its obligations under the Notes. Therefore, investors in the Notes issued by Essity Capital should consider the risk factors, financial condition and liquidity of Essity and the Group in addition to that of Essity Capital.

Uncertainty regarding whether English court judgments relating to the Notes would be enforceable

As of the date hereof, the only treaty providing for reciprocal recognition and enforcement of judgments rendered in connection with civil and commercial disputes between the United Kingdom and member states of the European Union (including Sweden and The Netherlands) is the Hague Convention of 30 June 2005 on Choice of Court Agreements (the "**Hague Convention**"). Pursuant to the provisions of the Hague Convention, a judgment entered against a Swedish or Dutch entity in the courts of a Contracting State (as defined in the Hague Convention) and which is enforceable in such Contracting State, will be directly enforceable in Sweden and The Netherlands only upon the satisfaction of certain requirements, one of which is that the relevant judgment relates to an agreement which includes an exclusive choice of court provision (as described in the Hague Convention). As such, a judgement entered against Essity or Essity Capital based on an asymmetric jurisdiction clause (i.e. a jurisdiction clause which is non-exclusive), as is the case in relation to the terms and conditions of the Notes, is likely to fall outside of the application of the Hague Convention and would most likely not be recognised or enforceable in Sweden or The Netherlands as a matter of right without a retrial on its merits. As a result, a final judgment in the courts of England or in any other jurisdiction which does not have an applicable treaty with Sweden or The Netherlands providing for reciprocal recognition and enforcement of judgments relating to the Notes, would most likely not be enforceable in Sweden or The Netherlands without a retrial on its merits.

The Notes may not be a suitable investment for all investors

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand that liquidity may be limited if the relevant Issuer makes large allocations to a limited number of investors;
- (v) understand thoroughly the terms of the Notes and be familiar with the behaviour of financial markets; and
- (vi) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Notes subject to optional redemption by the relevant Issuer

An optional redemption feature of Notes is likely to limit their market value.

During any period when the relevant Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The relevant Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

With respect to the Issuer Clean-up Call, there is no obligation on the relevant Issuer to inform investors if and when the Minimum Percentage of a particular Series of Notes has been reached or is about to be reached, and the relevant Issuer's right to redeem will exist notwithstanding that immediately prior to the serving of a notice in respect of the exercise of the Clean-up Call by the relevant Issuer the Notes may have been trading significantly above the redemption price, thus potentially resulting in a loss of capital invested.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that the relevant Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The relevant Issuer's ability to convert the interest rate will affect the secondary market and the market value of the Notes since the relevant Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the relevant Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the relevant Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Notes.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Risks relating to Notes which are linked to "benchmarks"

Interest rates or other types of rates and indices which are deemed to be "benchmarks", such as The London Interbank Offered Rate ("**LIBOR**"), the Euro Interbank Offered Rate ("**EURIBOR**") and the Stockholm Interbank Offered Rate ("**STIBOR**"), are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented.

The Benchmarks Regulation applies, subject to transitional provisions, to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. The Benchmarks Regulation could have a material impact on any Notes linked to LIBOR, EURIBOR, STIBOR or another "benchmark" rate or index, in particular, if the methodology or other terms of the benchmark are changed in order to comply with the terms of the Benchmarks Regulation. Such changes could (amongst other things) have the effect of reducing or increasing the rate or level, or affecting the volatility of the published rate or level of the relevant benchmark. In addition, the Benchmarks Regulation stipulates that each administrator of a "benchmark" regulated thereunder must be licensed by the competent authority of the Member States where such administrator is located. There is a risk that administrators of certain "benchmarks" will fail to obtain a necessary licence, preventing them from continuing to provide such "benchmarks".

As an example of such benchmark reforms, the UK Financial Conduct Authority announced on 27 July 2017 that it would no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021 and confirmed on 5 March 2021 that most LIBOR benchmark tenors would cease to

be representative benchmarks from 31 December 2021 or (in the case of certain tenors of USD LIBOR only) from 30 June 2023. Such announcements indicate that LIBOR will not continue in its current form. In addition, on 29 November 2017, the Bank of England and the Financial Conduct Authority ("FCA") announced that, from January 2018, its working group on Sterling risk-free rates had been mandated with implementing a broad-based transition to the Sterling Overnight Index Average ("SONIA") over the next four years across sterling bond, loan and derivative markets so that SONIA is established as the primary sterling interest rate benchmark by the end of 2021.

For Notes which are linked to any affected benchmark, uncertainty as to the nature of alternative reference rates and as to potential changes or other reforms to such benchmark may adversely affect such benchmark rates during the term of such Notes and the return on such Notes and the trading market for such Notes. The potential elimination of any benchmark, or changes in the manner of administration of any benchmark or the occurrence of any other event that the relevant Issuer determines to be a Benchmark Event (as defined in the Conditions), or a determination by the relevant Issuer that a Successor Rate (as defined in the Conditions) may be available, could require or result in an adjustment to the interest provisions of the Conditions as determined by an Independent Adviser or the relevant Issuer (as further described in the Conditions), or result in other consequences, in respect of any Notes linked to such benchmark. The circumstances which can lead to the trigger of a Benchmark Event are beyond the relevant Issuer's control and the subsequent use of a Successor Rate or an Alternative Benchmark Rate following such Benchmark Event may result in changes to the Conditions and/or interest payments that are lower than or that do not otherwise correlate over time with the payments that could have been made on such Notes if the relevant benchmark remained available in its current form. Furthermore, if the relevant Issuer is unable to appoint an Independent Adviser or an Independent Adviser appointed by it fails to determine a Successor Rate or an Alternative Benchmark Rate or Adjustment Spread in accordance with the Conditions, the relevant Issuer may have to exercise its discretion to determine (or to elect not to determine) a Successor Rate or an Alternative Benchmark Rate or Adjustment Spread, if applicable. Any such consequence could have a material adverse effect on the value of and return on any such Notes.

Moreover, any of the above matters or any other significant change to the setting or existence of any relevant reference rate could affect the ability of the relevant Issuer to meet its obligations under Notes linked to a benchmark or could have a material adverse effect on the value or liquidity of, and the amount payable under such Notes. Investors should consider these matters when making their investment decision with respect to such Notes.

Inverse Floating Rate Notes

Inverse Floating Rate Notes have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as LIBOR. The market values of those Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

Renminbi is not freely convertible and there are significant restrictions on the remittance of Renminbi into and out of the PRC which may adversely affect the liquidity of Renminbi Notes

Renminbi is not freely convertible at present. The government of the PRC (the "**PRC Government**") continues to regulate conversion between Renminbi and foreign currencies, including the Hong Kong dollar.

However, there has been significant reduction in control by the PRC Government in recent years, particularly over trade transactions involving import and export of goods and services as well as other frequent routine foreign exchange transactions. These transactions are known as current account items.

On the other hand, remittance of Renminbi into and out of the PRC for the settlement of capital account items, such as capital contributions, debt financing and securities investment, is generally only permitted upon obtaining specific approvals from, or completing specific registrations or filings with, the relevant authorities on a case-by-case basis and is subject to a strict monitoring system. Regulations in the PRC on the remittance of Renminbi into and out of the PRC for settlement of capital account items are being adjusted from time to time to match the policies of the PRC Government.

Although the People's Bank of China ("**PBoC**") has implemented policies improving accessibility to Renminbi to settle cross-border transactions in the past, there is no assurance that the PRC Government will liberalise control over cross-border remittance of Renminbi in the future, that the schemes for Renminbi cross-border utilisation will not be discontinued or that new regulations in the PRC will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or out of the PRC. Despite the Renminbi internationalisation pilot programme and efforts in recent years to internationalise the currency, there can be no assurance that the PRC Government will not impose interim or long-term restrictions on the crossborder remittance of Renminbi. In the event that funds cannot be repatriated out of the PRC in Renminbi, this may affect the overall availability of Renminbi outside the PRC and the ability of the Issuers to source Renminbi to finance their obligations under Notes denominated in Renminbi.

There is only limited availability of Renminbi outside the PRC, which may affect the liquidity of the Renminbi Notes and the Issuers' ability to source Renminbi outside the PRC to service Renminbi Notes

As a result of the restrictions by the PRC Government on cross-border Renminbi fund flows, the availability of Renminbi outside the PRC is limited. While PBoC has entered into agreements (the "**Settlement Arrangements**") on the clearing of Renminbi business with financial institutions (the "**Renminbi Clearing Banks**") in a number of financial centres and cities, including but not limited to Hong Kong, has established the Cross-Border Inter-Bank Payments System (CIPS) to facilitate cross-border Renminbi settlement and is further in the process of establishing Renminbi clearing and settlement mechanisms in several other jurisdictions, the current size of Renminbi denominated financial assets outside the PRC is limited.

There are restrictions imposed by PBoC on Renminbi business participating banks in respect of cross-border Renminbi settlement, such as those relating to direct transactions with PRC enterprises. Furthermore, Renminbi business participating banks do not have direct Renminbi liquidity support from PBoC, although PBoC has gradually allowed participating banks to access the PRC's onshore inter-bank market for the purchase and sale of Renminbi. The Renminbi Clearing Banks only have limited access to onshore liquidity support from PBoC for the purpose of squaring open positions of participating banks for limited types of transactions and are not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services. In cases where the participating banks cannot source sufficient Renminbi through the above channels, they will need to source Renminbi from outside the PRC to square such open positions.

Although it is expected that the offshore Renminbi market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that new PRC regulations will not be promulgated or the Settlement Arrangements will not be terminated or amended in the future which will have the effect of restricting availability of Renminbi outside the PRC. The limited availability of Renminbi outside the PRC may affect the liquidity of the

Renminbi Notes. To the extent the Issuers are required to source Renminbi in the offshore market to service its Renminbi Notes, there is no assurance that the Issuers will be able to source such Renminbi on satisfactory terms, if at all.

Investment in the Renminbi Notes is subject to exchange rate risks

The value of Renminbi against other foreign currencies fluctuates from time to time and is affected by changes in the PRC and international political and economic conditions as well as many other factors. The PBoC has in recent years implemented changes to the way it calculates the Renminbi's daily mid-point against the U.S. dollar to take into account market-maker quotes before announcing such daily mid-point. This change, and others that may be implemented, may increase the volatility in the value of the Renminbi against foreign currencies. All payments of interest and principal will be made in Renminbi with respect to Renminbi Notes unless otherwise specified. As a result, the value of these Renminbi payments may vary with the changes in the prevailing exchange rates in the marketplace. If the value of Renminbi depreciates against another foreign currency, the value of the investment made by a holder of the Renminbi Notes in that foreign currency will decline.

Investment in the Renminbi Notes is subject to interest rate risks

The PRC Government has gradually liberalised its regulation of interest rates in recent years. Further liberalisation may increase interest rate volatility. In addition, the interest rate for Renminbi in markets

outside the PRC may significantly deviate from the interest rate for Renminbi in the PRC as a result of foreign exchange controls imposed by PRC law and regulations and prevailing market conditions.

As Renminbi Notes may carry a fixed interest rate, the trading price of the Renminbi Notes will consequently vary with the fluctuations in the Renminbi interest rates. If holders of the Renminbi Notes propose to sell their Renminbi Notes before their maturity, they may receive an offer lower than the amount they have invested.

Payments with respect to the Renminbi Notes may be made only in the manner designated in the Renminbi Notes

All payments to investors in respect of the Renminbi Notes will be made solely (i) for so long as the Renminbi Notes are represented by global certificates held with the common depository or common safekeeper, as the case may be, for Clearstream Banking S.A. ("**Clearstream, Luxembourg**") and Euroclear Bank SA/NV ("**Euroclear**") or any alternative clearing system, by transfer to a Renminbi bank account maintained in Hong Kong or (ii) for so long as the Renminbi Notes are in definitive form, by transfer to a Renminbi bank account maintained in Hong Kong in accordance with prevailing rules and regulations. The Issuers cannot be required to make payment by any other means (including in any other currency or by transfer to a bank account in the PRC).

Gains on the transfer of the Renminbi Notes may become subject to income taxes under PRC tax laws

Under the *PRC Enterprise Income Tax Law*, the *PRC Individual Income Tax Law* and the relevant implementing rules, as amended from time to time, any gain realised on the transfer of Renminbi Notes by non-PRC resident enterprise or individual Holders may be subject to PRC enterprise income tax ("**EIT**") or PRC individual income tax ("**IIT**") if such gain is regarded as income derived from sources within the PRC. The *PRC Enterprise Income Tax Law* levies EIT at the rate of 20 per cent. of the PRC-sourced gains derived by such non-PRC resident enterprise from the transfer of Renminbi Notes but its implementation rules have reduced the EIT to 10 per cent. The *PRC Individual Income Tax Law* levies IIT at a rate of 20 per cent. of the PRC-sourced gains derived by such non-PRC resident or individual Holder from the transfer of Renminbi Notes.

However, uncertainty remains as to whether the gain realised from the transfer of Renminbi Notes by non-PRC resident enterprise or individual Holders would be treated as income derived from sources within the PRC and thus become subject to EIT or IIT. This will depend on how the PRC tax authorities interpret, apply or enforce the *PRC Enterprise Income Tax Law*, the *PRC Individual Income Tax Law* and the relevant implementing rules. According to the arrangement between the PRC and Hong Kong, for avoidance of double taxation, Holders who are residents of Hong Kong, including enterprise Holders and individual Holders, will not be subject to EIT or IIT on capital gains derived from a sale or exchange of the Notes.

Therefore, if enterprise or individual resident Holders which are non-PRC residents are required to pay PRC income tax on gains derived from the transfer of Renminbi Notes, unless there is an applicable tax treaty between PRC and the jurisdiction in which such non-PRC enterprise or individual Holders of Renminbi Notes reside that reduces or exempts the relevant EIT or IIT, the value of their investment in Renminbi Notes may be materially and adversely affected.

Remittance of proceeds in Renminbi into or out of the PRC

In the event that the relevant Issuer decides to remit some or all of the proceeds into the PRC in Renminbi, its ability to do so will be subject to obtaining all necessary approvals from, and/or registration or filing with, the relevant PRC government authorities. However, there is no assurance that the necessary approvals from, and/or registration or filing with, the relevant PRC government authorities will be obtained at all or, if obtained, they will not be revoked or amended in the future.

There is no assurance that the PRC Government will continue to gradually liberalise the control over cross-border Renminbi remittances in the future, that the PRC Government will not impose any interim or long-term restrictions on capital inflow or outflow which may restrict cross-border Renminbi remittances, that the pilot schemes introduced will not be discontinued or that new PRC regulations will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or outside the PRC. In the event that the relevant Issuer does remit some or all of the proceeds into the PRC in Renminbi and such Issuer subsequently is not able to repatriate funds out of the PRC in Renminbi, it will

need to source Renminbi outside the PRC to finance its obligations under the Renminbi Notes, and its ability to do so will be subject to the overall availability of Renminbi outside the PRC.

C. Risks related to the terms and conditions of the Notes

Modification and substitution

The Terms and Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

In certain instances, the relevant Issuer could substitute the obligor under the Notes without the consent or approval of the Noteholders

The relevant Issuer may, without the consent of the Noteholders or Couponholders, substitute itself in respect of all rights and obligations arising under or in connection with the Notes with a Substitute. Any such substitution will be subject to the conditions set out in the Terms and Conditions. The substitution of the relevant Issuer under the Notes could have adverse consequences, including tax implications, for Noteholders.

Change of law

The Conditions of the Notes are based on English law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of this Base Prospectus.

Notes where denominations involve integral multiples: definitive Notes

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes such that its holding amounts to a Specified Denomination.

If definitive Notes are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Exchange rate risks and exchange controls

The relevant Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency equivalent value of the principal payable on the Notes and (3) the Investor's Currency equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

The secondary market

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary

market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes.

Although applications have been made for the Notes issued under the Programme to be admitted to listing on Official List of the Luxembourg Stock Exchange and to be admitted to trading on the regulated market of the Luxembourg Stock Exchange, there is no assurance that such applications will be accepted, that any particular Tranche of Notes will be so admitted or that an active trading market will develop. Accordingly, there is no assurance as to the development or liquidity of any trading market for any particular Tranche of Notes.

Notes in global form held by or on behalf of Euroclear and Clearstream, Luxembourg

Notes issued under the Programme may be represented by one or more Global Notes. Such Global Notes will be deposited with a Common Depositary or Common Safekeeper. Except in the circumstances described in the relevant Global Note, investors will not be entitled to receive definitive Notes. Euroclear and Clearstream, Luxembourg will maintain records of the beneficial interests in the Global Notes. While the Notes are represented by one or more Global Notes, investors will be able to trade their beneficial interests only through Euroclear and Clearstream, Luxembourg.

While the Notes are represented by one or more Global Notes, the relevant Issuer will discharge their payment obligations under the Notes by making payments to the Common Depositary or Common Safekeeper for distribution to their account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of Euroclear and Clearstream, Luxembourg to receive payments under the relevant Notes. The relevant Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes.

Holders of beneficial interests in the Global Notes will not have a direct right to vote in respect of the relevant Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear and Clearstream, Luxembourg to appoint appropriate proxies.

Notes in NGN form

The new global note ("**NGN**") has been introduced to allow for the possibility of debt instruments being issued and held in a manner which will permit them to be recognised as eligible collateral for monetary policy of the central banking system for the euro (the "**Eurosystem**") and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. However, in any particular case such recognition will depend upon satisfaction of the Eurosystem eligibility criteria at the relevant time. Investors should make their own assessment as to whether the Notes meet such Eurosystem eligibility criteria.

FORM OF THE NOTES

Each Tranche of Notes will be in bearer form and will be initially issued in the form of a temporary global note (a "**Temporary Global Note**") or, if so specified in the applicable Final Terms, a permanent global note (a "**Permanent Global Note**") which, in either case, will:

- (i) if the Global Notes (as defined under "Terms and Conditions of the Notes") are intended to be issued in new global note ("**NGN**") form, as stated in the applicable Final Terms, be delivered on or prior to the original issue date of the Tranche to a common safekeeper for Euroclear and Clearstream Luxembourg; and
- (ii) if the Global Notes are not intended to be issued in NGN Form, be delivered on or prior to the original issue date of the Tranche to a common depository for Euroclear and Clearstream, Luxembourg.

Whilst any Note is represented by a Temporary Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Global Note, if the Temporary Global Note is not intended to be issued in NGN form) only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Agent (as defined under "*Terms and Conditions of the Notes*").

On and after the date (the "**Exchange Date**") which is 40 days after a Temporary Global Note is issued, interests in such Temporary Global Note will be exchangeable (free of charge) upon a request as described therein either for (a) interests in a Permanent Global Note of the same Series or (b) definitive Notes of the same Series with, where applicable, receipts, interest coupons and talons attached (as indicated in the applicable Final Terms and subject, in the case of definitive Notes, to such notice period as is specified in the applicable Final Terms), in each case against certification of beneficial ownership as described above unless such certification has already been given. The holder of a Temporary Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Global Note for an interest in a Permanent Global Note or for definitive Notes is improperly withheld or refused.

If the Specified Denomination of the Notes stated in the Final Terms includes language substantially to the following effect: "*€100,000 and integral multiples of €1,000 in excess thereof up to and including €199,000*", the Notes cannot be represented on issue by a Temporary Global Note exchangeable for Definitive Notes, or by a Permanent Global Note exchangeable for Definitive Notes other than in the following limited circumstances:

- (i) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business; or
- (ii) any of the circumstances described in Condition 9 (*Events of Default*) occurs.

Payments of principal, interest (if any) or any other amounts on a Permanent Global Note will be made through Euroclear and/or Clearstream, Luxembourg (against presentation or surrender (as the case may be)) of the Permanent Global Note without any requirement for certification.

The applicable Final Terms will specify that a Permanent Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Notes with, where applicable, receipts, interest coupons and talons attached upon either (i) not less than 60 days' written notice from Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Global Note) to the Agent as described therein or (ii) only upon the occurrence of an Exchange Event. For these purposes, "**Exchange Event**" means that (i) an Event of Default (as defined in Condition 9) has occurred and is continuing, (ii) the relevant Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no

successor clearing system is available or (iii) the relevant Issuer has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Permanent Global Note in definitive form. The relevant Issuer will promptly give notice to Noteholders in accordance with Condition 13 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Global Note) may give notice to the Agent requesting exchange and, in the occurrence of an Exchange Event as described in (iii) above, the relevant Issuer may also give notice to the Agent requesting exchange. Any such exchange shall occur not later than 45 days after the date of receipt of the first relevant notice by the Agent.

The following legend will appear on all Notes which have an original maturity of more than 365 days and on all receipts and interest coupons relating to such Notes:

"ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE."

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Notes, receipts or interest coupons and will not be entitled to capital gains treatment of any gain on any sale, disposition, redemption or payment of principal in respect of such Notes, receipts or interest coupons.

Notes which are represented by a Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

Pursuant to the Agency Agreement (as defined under "*Terms and Conditions of the Notes*"), the Agent shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes, the Notes of such further Tranche shall be assigned a common code and ISIN which are different from the common code and ISIN assigned to Notes of any other Tranche of the same Series until at least the expiry of the distribution compliance period (as defined in Regulation S under the Securities Act) applicable to the Notes of such Tranche.

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms.

A Note may be accelerated by the holder thereof in certain circumstances described in Condition 9. In such circumstances, where any Note is still represented by a Global Note and the Global Note (or any part thereof) has become due and repayable in accordance with the Terms and Conditions of such Notes and payment in full of the amount due has not been made in accordance with the provisions of the Global Note then the Global Note will become void at 8.00 p.m. (London time) on such day. At the same time, holders of interests in such Global Note credited to their accounts with Euroclear and/or Clearstream, Luxembourg, as the case may be, will become entitled to proceed directly against the relevant Issuer on the basis of statements of account provided by Euroclear and/or Clearstream, Luxembourg on and subject to the terms of a deed of covenant dated 7 May 2021 entered into by Essity (the "**Essity Deed of Covenant**") and a deed of covenant dated 7 May 2021 entered into by Essity Capital (the "**Essity Capital Deed of Covenant**" and, together with the Essity Deed of Covenant, the "**Deeds of Covenant**").

For so long as any of the Notes is represented by a Global Note held on behalf of Euroclear Bank S.A./N.V. ("**Euroclear**") and/or Clearstream Banking, S.A. ("**Clearstream, Luxembourg**"), each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer and the Paying Agents as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on such nominal amount of such Notes, for which purpose the bearer of the relevant Global Note shall be treated by the Issuer and any Paying Agent as the holder of such nominal amount of such Notes in accordance

with and subject to the terms of the relevant Global Note and the expressions "**Noteholder**" and "**holder of Notes**" and related expressions shall be construed accordingly.

Notes which are represented by a Global Note will be transferable only in accordance with the rules and procedures for the time being of Euroclear and Clearstream, Luxembourg, as the case may be.

References to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms.

3. **Status and Guarantee**

- (a) *Status of the Notes:* The Notes and any relative Receipts and Coupons are direct, unconditional, unsubordinated and (subject to the provisions of Condition 3) unsecured obligations of the Issuer which will at all times rank at least *pari passu* among themselves and (save for certain obligations required to be preferred by law) equally with all other unsecured obligations (other than subordinated obligations, if any) of the Issuer, from time to time outstanding.
- (b) *Status of the Guarantee:* The Guarantor has in the Deed of Guarantee unconditionally and irrevocably guaranteed the due and punctual payment of all sums from time to time payable by the Issuer in respect of the Notes. The Guarantee of the Notes constitutes a direct, unconditional, unsubordinated and (subject to the provisions of Condition 3) unsecured obligation of the Guarantor which will at all times rank (save for certain obligations required to be preferred by law) equally with all other unsecured obligations (other than subordinated obligations, if any) of the Guarantor, from time to time outstanding.

4. **Negative Pledge**

- (a) So long as any of the Notes remain outstanding, neither the Issuer nor, if applicable, the Guarantor shall, and each of the Issuer and the Guarantor shall procure that no Principal Subsidiary shall, create or permit to subsist any mortgage, pledge, lien, charge or other security interest upon the whole or any part of their respective present or future undertakings, assets or revenues (including any uncalled capital), to secure any (i) existing or future Relevant Indebtedness or (ii) guarantee or indemnity in respect of any existing or future Relevant Indebtedness of a third party, without in any such case at the same time according to the Notes or Guarantee of the Notes (as applicable) either (x) the same security as is granted to or is outstanding in respect of such Relevant Indebtedness or (y) such other security as shall be approved by an Extraordinary Resolution (as defined in the Agency Agreement) of the Noteholders, *provided*, however that the foregoing restrictions shall not apply to:
 - (i) any Security Interest existing on any property or asset prior to the acquisition thereof by the Issuer or the Guarantor, if applicable, or any Principal Subsidiary or existing on any property or asset of any Person that becomes a Principal Subsidiary after the date hereof prior to the time such Person becomes a Principal Subsidiary, provided that (i) such Security Interest is not created in contemplation of or in connection with such acquisition or such Person becoming a Principal Subsidiary, as the case may be, (ii) such Security Interest shall not apply to any other property or assets of the Issuer or the Guarantor, if applicable, or any Principal Subsidiary and (iii) such Security Interest shall secure only those obligations which it secures on the date of such acquisition or the date such Person becomes a Principal Subsidiary, as the case may be and extensions, modifications, renewals and replacements thereof do not increase the principal amount thereof; and
 - (ii) Security Interests arising from any Project Finance Debt.

For the purposes of the Conditions:

"Person" means any natural person, corporation, limited liability company, trust, joint venture, association, company, partnership, government authority or other entity;

"Principal Subsidiary" means any Subsidiary of Essity:

- (i) of which the turnover or total assets (consolidated in the case of a Subsidiary which itself has Subsidiaries and which, in the normal course, prepares consolidated accounts) represents not less than ten per cent. (10%) of the consolidated turnover or the consolidated total assets of Essity and its Subsidiaries determined by reference to the latest audited accounts; or
- (ii) to which is transferred the whole or substantially the whole of the undertaking and assets of a Subsidiary of Essity which immediately before the transfer is a Principal Subsidiary,

excluding any Subsidiary at least ten per cent. (10%) of whose equity share capital is listed on a recognised stock exchange and which has no debt outstanding which is guaranteed by Essity all as more particularly defined in the Agency Agreement.

A report of independent auditors appointed by Essity that in their opinion a Subsidiary of Essity is or is not or was or was not at any particular time or throughout any specified period a Principal Subsidiary shall, in the absence of manifest error, be conclusive and binding on all parties.

"Project Finance Debt" means any indebtedness incurred in relation to any asset solely for purposes of financing the whole or any part of the acquisition, creation, construction, improvement or development of such asset where the financial institutions to whom such indebtedness is owed have recourse solely to the applicable project borrower (where such project borrower is formed solely or principally for the purpose of the relevant project) and/or to such asset (or any derivative asset thereto) or any other similar non-recourse indebtedness which is properly regarded as project finance debt;

"Relevant Indebtedness" means any loan or other indebtedness in the form of, or represented or evidenced by, notes, bonds, debentures or other securities which are, or are to be, quoted, listed or ordinarily dealt in or traded on any stock exchange, over-the-counter or other securities market;

"Security Interest" means any mortgage, charge, pledge, lien or other security interest including, without limitation, anything analogous to any of the foregoing under the laws of any jurisdiction; and

"Subsidiary" means a subsidiary within the meaning of the Swedish Companies Act (2005:551).

5. **Interest**

(a) *Interest on Fixed Rate Notes:*

Each Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

If the Notes are in definitive form, except as provided in the applicable Final Terms, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on (but excluding) such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified.

As used in the Conditions, **"Fixed Interest Period"** means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

Except in the case of Notes in definitive form, where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (i) in the case of Fixed Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note; or
- (ii) in the case of Fixed Rate Notes in definitive form, the Calculation Amount;

and in each case multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Fixed Rate Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination without any further rounding.

"**Day Count Fraction**" means, in respect of the calculation of an amount of interest in accordance with this Condition 4(a):

- (i) if "**Actual/Actual (ICMA)**" is specified in the applicable Final Terms:
 - (a) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the "**Accrual Period**") is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
 - (b) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (1) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
 - (2) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year;
- (ii) if "**Actual/365 (Fixed)**" is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365; and
- (iii) if "**30/360**" is specified in the applicable Final Terms, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360.

In the Conditions:

"Determination Period" means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

"sub-unit" means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, one cent.

(b) *Interest—Supplemental Provision for Renminbi Notes:*

This Condition 4(b) shall apply to Fixed Rate Notes denominated in Renminbi (the "**Renminbi Notes**") only where the Final Terms for the relevant Renminbi Notes specify that the Interest Payment Dates are subject to adjustment.

For such Notes, the relevant Fixed Coupon Amount shall be calculated by the Calculation Agent by multiplying the product of the relevant Rate of Interest and the Calculation Amount by the relevant Day Count Fraction and rounding the resultant figure to the nearest CNY0.01, with CNY0.005 being rounded upwards. The Calculation Agent shall cause any Fixed Coupon Amount so calculated and the relevant Interest Payment Date to be notified to the Issuing and Principal Paying Agent, the Issuer, the Guarantor, if applicable, and the Noteholders in accordance with Condition 13 (*Notices*) and, if the Notes admitted to listing and/or trading on any stock exchange and the rules of such exchange so require, the relevant stock exchange as soon as possible after their determination or calculation but in no event later than the fourth London Banking Day thereafter or, if earlier in the case of notification to the stock exchange, the time required by the rules of the relevant stock exchange. For the purposes of these Conditions, "**London Banking Day**" means a day on which commercial banks are open for business (including dealings in foreign exchange and foreign currency deposits) in London.

(c) *Interest on Floating Rate Notes:*

(i) Interest Payment Dates:

Each Floating Rate Note bears interest from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (A) the Specified Interest Payment Date(s) in each year specified in the applicable Final Terms; or
- (B) if no Specified Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Specified Interest Payment Date, an "**Interest Payment Date**") which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period (which expression shall, in the Conditions, mean the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date).

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (C) in any case where Specified Periods are specified in accordance with Condition 4(c)(i)(B) above, the Floating Rate Convention, such Interest

Payment Date (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) above shall apply mutatis mutandis or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (A) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (B) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or

- (1) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (2) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (3) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In the Conditions, "**Business Day**" means a day which is both:

- (A) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and any Additional Business Centre specified in the applicable Final Terms; and
- (B) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which if the Specified Currency is Australian dollars or New Zealand dollars shall be Sydney and Auckland, respectively) or (2) in relation to any sum payable in euro, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) System (the "**TARGET2 System**") is open or (3) in relation to any sum payable in Renminbi, a day (other than a Saturday, Sunday or public holiday) on which commercial banks in Hong Kong are generally open for business and settlement of Renminbi payments in Hong Kong.

(ii) *Rate of Interest:*

The Rate of Interest payable from time to time in respect of Floating Rate Notes will be determined in the manner specified in the applicable Final Terms.

- (A) *ISDA Determination for Floating Rate Notes:* Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this sub-paragraph (A), "**ISDA Rate**" for an Interest Period means a rate equal to the Floating Rate that would be determined by the Agent under an interest rate swap transaction if the Agent were acting as

Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Notes (the "**ISDA Definitions**") and under which:

- (1) the Floating Rate Option is as specified in the applicable Final Terms;
- (2) the Designated Maturity is a period specified in the applicable Final Terms; and
- (3) the relevant Reset Date is either (i) if the applicable Floating Rate Option is based on LIBOR, EURIBOR, or STIBOR, the first day of that Interest Period or (ii) in any other case, as specified in the applicable Final Terms.

For the purposes of this sub-paragraph (A), "**Floating Rate**", "**Calculation Agent**", "**Floating Rate Option**", "**Designated Maturity**" and "**Reset Date**" have the meanings given to those terms in the ISDA Definitions.

Unless otherwise stated in the applicable Final Terms, the Minimum Rate of Interest shall be deemed to be zero.

- (B) *Screen Rate Determination for Floating Rate Notes:* Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (1) the offered quotation; or
- (2) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at 11.00 a.m. (London time, in the case of LIBOR, Brussels time, in the case of EURIBOR, or Stockholm time, in the case of STIBOR) on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

If the Relevant Screen Page is not available or if no offered quotation appears or fewer than three offered quotations appear, in each case as at the Specified Time, the Principal Paying Agent shall request each of the Reference Banks to provide the Principal Paying Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate at approximately the Specified Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Principal Paying Agent with offered quotations, the Rate of Interest for the Interest Period shall be the arithmetic mean (rounded if necessary to the fifth decimal place with 0.000005 being rounded upwards) of the offered quotations plus or minus (as appropriate) the Margin (if any), all as determined by the Principal Paying Agent.

If on any Interest Determination Date one only or none of the Reference Banks provides the Principal Paying Agent with an offered quotation as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be the rate per annum which the Principal Paying Agent determines as being the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the rates, as communicated to (and at the request of) the Principal Paying Agent by the Reference Banks or any two or more of them, at which such banks were offered, at approximately the Specified Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in the London inter-bank market (if the Reference Rate is LIBOR), the Euro-zone inter-bank market (if the Reference Rate is EURIBOR), or the Stockholm inter-bank market (if the Reference Rate is STIBOR) plus or minus (as indicated in the applicable Final Terms) the Margin (if any) or, if fewer than two of the Reference Banks provide the Principal Paying Agent with offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, at approximately the Specified Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for the purpose) informs the Principal Paying Agent it is quoting to leading banks in the London inter-bank market (if the Reference Rate is LIBOR), the Euro-zone inter-bank market (if the Reference Rate is EURIBOR), or the Stockholm inter-bank market (if the Reference Rate is STIBOR) plus or minus (as indicated in the applicable Final Terms) the Margin (if any), provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period in place of the Margin relating to that last preceding Interest Period).

If the Reference Rate from time to time in respect of Floating Rate Notes is specified in the applicable Final Terms as being other than LIBOR, EURIBOR or STIBOR, the Rate of Interest in respect of such Notes will be determined as provided in the applicable Final Terms.

For the purposes of this sub-paragraph (B), "**Reference Banks**" means, in the case of a determination of LIBOR, the principal London office of four major banks in the London inter-bank market, in the case of a determination of STIBOR, the principal Stockholm office of four major banks in the Stockholm inter-bank market and, in the case of a determination of EURIBOR, the principal Euro-zone office of four major banks in the Euro-zone inter-bank market, in each case selected by the Agent or as specified in the applicable Final Terms.

(iii) *Linear Interpolation:*

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Agent by straight-line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified hereon as applicable) or the relevant Floating Rate Option (where ISDA Determination is specified hereon as applicable), where:

- (A) one rate shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period; and
- (B) the other rate shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period,

provided, however, that if there is no rate available for a period of time next shorter than the length of the relevant Interest Period or, as the case may be, next longer than the length of the relevant Interest Period, then the Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

(iv) *Minimum Rate of Interest and/or Maximum Rate of Interest:*

If the applicable Final Terms specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (ii) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Final Terms specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (ii) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(v) *Determination of Rate of Interest and calculation of Interest Amounts:*

The Agent will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest in respect of Floating Rate Notes for the relevant Interest Period.

The Agent will calculate the amount of interest (the "**Interest Amount**") payable on the Floating Rate Notes for the relevant Interest Period by applying the Rate of Interest to:

- (A) in the case of Floating Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Notes represented by such Global Note; or
- (B) in the case of Floating Rate Notes in definitive form, the Calculation Amount, and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Floating Rate Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination without any further rounding.

"**Day Count Fraction**" means, in respect of the calculation of an amount of interest in accordance with this Condition 4(c):

- (1) if "**Actual/Actual (ISDA)**" or "Actual/Actual" is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (A) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (B) the actual

number of days in that portion of the Interest Period falling in a non-leap year divided by 365);

- (2) if "**Actual/365 (Fixed)**" is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365;
- (3) if "**Actual/365 (Sterling)**" is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
- (4) if "**Actual/360**" is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 360;
- (5) if "**30/360**", "**360/360**" or "**Bond Basis**" is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day count Fraction} = \frac{[360 \times (Y2 - Y1)] + [30 \times (M2 - M1)] + (D2 - D1)}{360}$$

where:

"**Y1**" is the year, expressed as a number, in which the first day of the Interest Period falls;

"**Y2**" is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"**M1**" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"**M2**" is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"**D1**" is the first calendar day, expressed as a number, of the Interest Period, unless such number is 31, in which case D1 will be 30; and

"**D2**" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D1 is greater than 29, in which case D2 will be 30;

- (6) if "**30E/360**" or "**Eurobond Basis**" is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day count Fraction} = \frac{[360 \times (Y2 - Y1)] + [30 \times (M2 - M1)] + (D2 - D1)}{360}$$

where:

"**Y1**" is the year, expressed as a number, in which the first day of the Interest Period falls;

"**Y2**" is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"**M1**" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"**M2**" is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"D1" is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D1 will be 30; and

"D2" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31, in which case D2 will be 30;

- (7) if "**30E/360 (ISDA)**" is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day count Fraction} = \frac{[360 \times (Y2 - Y1)] + [30 \times (M2 - M1)] + (D2 - D1)}{360}$$

where:

"Y1" is the year, expressed as a number, in which the first day of the Interest Period falls;

"Y2" is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"M1" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"M2" is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"D1" is the first calendar day, expressed as a number, of the Interest Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D1 will be 30; and

"D2" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31 and D2 will be 30.

- (vi) *Benchmark Replacement:*

Notwithstanding the provisions above in this Condition 4, if the Issuer (in consultation with the Determination Agent (or the person specified in the applicable Final Terms as the party responsible for calculating the Rate of Interest and the Interest Amount(s)) determines that a Benchmark Event has occurred when any Rate of Interest (or the relevant component part thereof) remains to be determined by reference to a Reference Rate, then the following provisions shall apply:

- (A) the Issuer shall use reasonable endeavours to appoint an Independent Adviser for the determination (with the Issuer's agreement) of a Successor Rate or, alternatively, if the Independent Adviser and the Issuer agree that there is no Successor Rate, an alternative rate (the "**Alternative Benchmark Rate**") and, in either case, an alternative screen page or source (the "**Alternative Relevant Screen Page**") and an Adjustment Spread (if applicable) no later than three (3) Business Days prior to the relevant Interest Determination Date relating to the next succeeding Interest Period (the "**IA Determination Cut-off Date**") for purposes of determining the Rate of Interest applicable to the Notes for all future Interest Periods (subject to the subsequent operation of this Condition 4(c)(vi));

- (B) the Alternative Benchmark Rate shall be such rate as the Independent Adviser and the Issuer acting in good faith agree has replaced the relevant Reference Rate in customary market usage for the purposes of determining floating rates of interest in respect of eurobonds denominated in the Specified Currency, or, if the Independent Adviser and the Issuer agree that there is no such rate, such other rate as the Independent Adviser and the Issuer acting in good faith agree is most comparable to the relevant Reference Rate, and the Alternative Relevant Screen Page shall be such page of an information service as displays the Alternative Benchmark Rate;
- (C) if (i) the Issuer is unable to appoint an Independent Adviser or (ii) if the Independent Adviser appointed by it fails to determine a Successor Rate or, failing which, an Alternative Benchmark Rate prior to the IA Determination Cut-off Date, the Reference Rate applicable to the immediate following Interest Period shall be the Reference Rate applicable as at the last preceding Interest Determination Date. If there has not been a first Interest Payment Date, the Reference Rate shall be the Reference Rate applicable to the first Interest Period. For the avoidance of doubt, any adjustment pursuant to this Condition 4(vi)(C) shall apply to the immediately following Interest Period only. Any subsequent Interest Period may be subject to the subsequent operation of this Condition 4(vi);
- (D) if a Successor Rate or an Alternative Benchmark Rate and an Alternative Relevant Screen Page is determined in accordance with Condition 4(vi)(A) or 4(vi)(B), such Successor Rate or Alternative Benchmark Rate and Alternative Relevant Screen Page shall be the benchmark and the Relevant Screen Page in relation to the Notes for all future Interest Periods (subject to the subsequent operation of this Condition 4(c)(vi));
- (E) if the Independent Adviser, following consultation with the Issuer and acting in good faith, determines that (1) an Adjustment Spread is required to be applied to the Successor Rate or Alternative Benchmark Rate and (2) the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or Alternative Benchmark Rate for each subsequent determination of a relevant Rate of Interest and Interest Amount(s) (or a component part thereof) by reference to such Successor Rate or Alternative Benchmark Rate;
- (F) if a Successor Rate or an Alternative Benchmark Rate and/or Adjustment Spread is determined in accordance with the above provisions, the Independent Adviser (with the Issuer's agreement), may also specify changes to the Day Count Fraction, Business Day Convention, Business Days, Interest Determination Date and/or the definition of Reference Rate applicable to the Notes, and the method for determining the fallback rate in relation to the Notes, in order to follow market practice in relation to the Successor Rate or Alternative Benchmark Rate and/or Adjustment Spread, which changes shall apply to the Notes for all future Interest Periods (subject to the subsequent operation of this Condition 4(c)(vi)); and

Payments of instalments of principal (if any) in respect of definitive Notes, other than the final instalment, will (subject as provided below) be made in the manner provided in Condition 5(a) above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Receipt in accordance with the preceding paragraph. Payment of the final instalment will be made in the manner provided in Condition 5(a) above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Note in accordance with the preceding paragraph. Each Receipt must be presented for payment of the relevant instalment together with the definitive Note to which it appertains. Receipts presented without the definitive Note to which they appertain do not constitute valid obligations of the Issuer. Upon the date on which any definitive Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Fixed Rate Notes in definitive form (other than Long Maturity Notes (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Upon any Fixed Rate Note in definitive form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note or Long Maturity Note in definitive form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A "Long Maturity Note" is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Note.

If the due date for redemption of any definitive Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant definitive Note.

(c) *Payments in respect of Global Notes:*

Payments of principal and interest (if any) in respect of Notes represented by any Global Note will (subject as provided below) be made in the manner specified above in relation to definitive Notes and otherwise in the manner specified in the relevant Global Note against presentation or surrender, as the case may be, of such Global Note at the specified office of any Paying Agent outside the United States.

The holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Notwithstanding the foregoing provisions of this Condition, if any amount of principal and/or interest in respect of Notes is payable in U.S. dollars, such U.S. dollar payments of principal and/or interest in respect of such Notes will be made at the specified office of a Paying Agent in the United States if:

- (i) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Notes in the manner provided above when due;
- (ii) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
- (iii) such payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

(e) *Payment Day:*

If the date for payment of any amount in respect of any Note, Receipt or Coupon is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay. For these purposes, "**Payment Day**" means any day which (subject to Condition 8) is:

The Agency Agreement, the Deeds of Covenant, the Deed of Guarantee, the Notes, the Receipts and the Coupons are governed by, and shall be construed in accordance with, English law.

(b) *Submission to jurisdiction:*

Each of the Issuer and the Guarantor agrees for the exclusive benefit of the Noteholders, the Receiptholders and the Couponholders, that the courts of England are to have jurisdiction to settle any disputes which may arise out of or in connection with the Notes, the Receipts and/or the Coupons and that accordingly any suit, action or proceedings (together referred to as "**Proceedings**") arising out of or in connection with the Notes, the Receipts and the Coupons may be brought in such courts.

Each of the Issuer and the Guarantor hereby irrevocably waives any objection which it may have now or hereafter to the laying of the venue of any such Proceedings in any such court and any claim that any such Proceedings have been brought in an inconvenient forum and hereby further irrevocably agrees that a judgment in any such Proceedings brought in the English courts shall be conclusive and binding upon it and may be enforced in the courts of any other jurisdiction.

Nothing contained in this Condition shall limit any right to take Proceedings against the Issuer or the Guarantor (if applicable) in any other court of competent jurisdiction, nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of

Proceedings in any other jurisdiction, whether concurrently or not to the extent that the bringing of such proceedings is not contrary to relevant law.

(c) *Appointment of Process Agent:*

Each of the Issuer and the Guarantor appoints Essity UK Holdings Limited at its registered office at Southfields Road, Dunstable, Bedfordshire LU6 3EJ (Attention: The Secretary) as its agent for service of process, and undertake that, in the event of Essity UK Holdings Limited ceasing so to act or ceasing to be registered in England, they will appoint another person as their agent for service of process in England in respect of any Proceedings. Nothing herein shall affect the right to serve proceedings in any other manner permitted by law.

(d) *Other documents:*

Each of the Issuer and the Guarantor has (in respect of the documents to which they are a party) in the Agency Agreement, the Deed of Guarantee and the Deeds of Covenant submitted to the jurisdiction of the English courts and appointed an agent for service of process in terms substantially similar to those set out above.

USE OF PROCEEDS

The net proceeds from each issue of Notes will be applied by the relevant Issuer for its general corporate purposes unless, in respect of an issue of Notes, there is a particular identified use of proceeds, in which case the use of proceeds will be stated in the applicable Final Terms.

If Special Redemption Event (*Issuer Call*) is specified in the Final Terms as "Applicable", the use of proceeds for acquisition consideration, directly or indirectly, in whole or in part, and related fees will be stated in the applicable Final Terms. The Final Terms may also state the potential use for general corporate purposes or other purposes if the Special Redemption Event occurs but the relevant Issuer elects not to exercise the Special Redemption Event (*Issuer Call*).

Group History

The Group was part of the Svenska Cellulosa Aktiebolaget SCA (publ) ("**SCA**") corporate group prior to the demerger of the Group from SCA in 2017, as further described below.

SCA was incorporated in Sweden on 14 June 1915 and from 1929 was a holding company for ten forest industry companies that produced sawn timber products and pulp used for paper production in northern Sweden. These companies continued to operate as independent units until 1954 when they were merged into one company, SCA. SCA was listed on the Stockholm Stock Exchange (Nasdaq Stockholm) in 1950.

SCA expanded into other business areas and expanded its geographic presence. SCA developed its business and formed a leading global hygiene and forest company. The hygiene business accounted for 86 per cent. of the SCA group's 2016 net sales and the forest products business accounted for 14 per cent. for the same period.

In April 2017, the Annual General Meeting of SCA decided, in accordance with the Board of Directors' proposal, to distribute all shares in Essity (formerly known as SCA Hygiene AB (publ)) to SCA's shareholders. In June 2017, Essity was listed on Nasdaq and the Issuer's Class A and Class B shares commenced trading.

In April 2017, the acquisition of BSN medical was completed, a leading global medical solutions company. BSN medical develops, manufactures and sells products within wound care, compression therapy and orthopaedics. BSN medical is included in the Business Area Personal Care and consolidated in the Group's financial statements.

The Group's strategy

The Group's vision states that it is dedicated to improving well-being through leading hygiene and health solutions. The Group's mission is to sustainably develop, produce, market and sell value-added products and services within hygiene and health.

TAXATION

Swedish Taxation

The following summary outlines certain Swedish tax consequences relating to holders of Notes. The summary is based on the laws of Sweden as currently in effect and is intended to provide general information only. The summary does not address, *inter alia*, situations where the Notes are held in an investment savings account (*Sw. investeringssparkonto*) or the rules regarding reporting obligations for, among others, payers of interest. Further, the summary does not address credit of foreign taxes. Investors should consult their professional tax advisers regarding the Swedish tax and other tax consequences (including the applicability and effect of tax treaties for the avoidance of double taxation) of acquiring, owning and disposing of the Notes in their particular circumstances.

Holders not tax resident in Sweden

Payments of any principal amount or any amount that is considered to be interest for Swedish tax purposes to the holder of any Notes should not be subject to Swedish income tax, provided that such a holder (i) is not resident in Sweden for Swedish tax purposes and (ii) does not have a permanent establishment in Sweden to which the Notes are effectively connected. Swedish withholding tax, or Swedish tax deduction, is not imposed on payments of any principal amount or any amount that is considered to be interest for Swedish tax purposes, except for certain payments of interest (and other return on Notes) to a private individual (or an estate of a deceased individual) who is resident in Sweden for Swedish tax purposes (see "*Holders tax resident in Sweden*" below).

However, broadly speaking, provided that the value of or the return on the Notes relates to securities taxed as shares, private individuals who have been residents of Sweden for tax purposes due to a habitual abode in Sweden or a continuous stay in at any time during the calendar year of disposal or redemption or the ten calendar years preceding the year of disposal or redemption are liable for capital gains taxation in Sweden upon disposal or redemption of such Notes. In a number of cases though, the applicability of this rule is limited by the applicable tax treaty for the avoidance of double taxation.

Holders tax resident in Sweden

In general, for Swedish corporations and private individuals (and estates of deceased individuals) with residence in Sweden for Swedish tax purposes, all capital income (for example income that is considered to be interest for Swedish tax purposes and capital gains on Notes) will be taxable. Specific tax consequences may be applicable to certain categories of corporations, for example life-insurance companies. Further, specific tax consequences may be applicable if, and to the extent that, a holder of Notes realises a capital loss on the Notes and to any currency exchange gains or losses.

If amounts that are deemed as interest for Swedish tax purposes are paid by a legal entity domiciled in Sweden, including a Swedish branch, or in certain cases a clearing institution within the EEA, to a private individual (or an estate of a deceased individual) with residence in Sweden for Swedish tax purposes, Swedish preliminary taxes are normally withheld by the legal entity on such payments. Swedish preliminary taxes should normally also be withheld on other returns on Notes (but not capital gains), if the return is paid out together with such a payment of interest referred to above.

Dutch Taxation

The following summary of certain Dutch taxation matters is based on the laws and practice in force as of the date of this Base Prospectus and is subject to any changes in law and the interpretation and application thereof, which changes could have retroactive effect. The following summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold or dispose of Notes, and does not purport to deal with the tax consequences applicable to all categories of investors, some of which may be subject to special rules.

For the purpose of the paragraph "Taxes on Income and Capital Gains" below it is assumed that a holder of Notes, being an individual or a non-resident entity, does not have nor will have a substantial interest (aanmerkelijk belang), or — in the case of such holder being an entity — a deemed substantial interest, in Essity Capital and that no connected person (verbonden persoon) to the holder has or will have a substantial interest in Essity Capital.

Generally speaking, an individual has a substantial interest in a company if (a) such individual, either alone or together with his partner, directly or indirectly has, or is deemed to have or (b) certain relatives of such individual or his partner directly or indirectly have or are deemed to have (i) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5 per cent. or more of either the total issued and outstanding capital of such company or the issued and outstanding capital of any class of shares of such company, or (ii) the ownership of, or certain rights over, profit participating certificates (*winstbewijzen*) that relate to 5 per cent. or more of either the annual profit or the liquidation proceeds of such company. Generally, an individual has a deemed substantial interest in a company if (i) such individual or such individual's predecessor has disposed of or is deemed to have disposed of all or part of a substantial interest or (ii) such individual has transferred an enterprise in exchange for shares in such company, in each case, on a non-recognition basis.

Generally speaking, a non-resident entity has a substantial interest in a company if such entity, directly or indirectly has (i) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5 per cent. or more of either the total issued and outstanding capital of such company or the issued and outstanding capital of any class of shares of such company, or (ii) the ownership of, or certain rights over, profit participating certificates (*winstbewijzen*) that relate to 5 per cent. or more of either the annual profit or the liquidation proceeds of such company. Generally, an entity has a deemed substantial interest in a company if such entity has disposed of or is deemed to have disposed of all or part of a substantial interest on a non-recognition basis.

For the purpose of this summary, the term "entity" means a corporation as well as any other person that is taxable as a corporation for Dutch corporate tax purposes or would be taxable as a corporation for Dutch corporate tax purposes in case such corporation or other person would be or would be deemed to be tax resident in the Netherlands for Dutch corporate tax purposes.

Where this summary refers to a holder of Notes, an individual holding Notes or an entity holding Notes, such reference is restricted to an individual or entity holding legal title to as well as an economic interest in such Notes or otherwise being regarded as owning Notes for Dutch tax purposes. It is noted that for purposes of Dutch income, corporate, gift and inheritance tax, assets legally owned by a third party such as a trustee, foundation or similar entity, may be treated as assets owned by the (deemed) settlor, grantor or similar originator or the beneficiaries in proportion to their interest in such arrangement.

Where the summary refers to "the Netherlands" or "Dutch" it refers only to the European part of the Kingdom of the Netherlands.

Investors should consult their professional advisers on the tax consequences of their acquiring, holding and disposing of Notes.

Withholding tax

All payments of principal and interest by Essity Capital under the Notes can be made without withholding or deduction of any taxes of whatever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein, unless the Notes qualify as equity of Essity Capital for Dutch tax purposes and save that Dutch withholding tax may apply on certain (deemed) payments of interest made to an affiliated (*gelieerde*) entity of Essity Capital if such entity (i) is considered to be resident (*gevestigd*) in a jurisdiction that is listed in the annually updated Dutch Regulation on low-taxing states and non-cooperative jurisdictions for tax purposes (*Regeling laagbelastende staten en niet-coöperatieve rechtsgebieden voor belastingdoeleinden*), or (ii) has a permanent establishment located in such jurisdiction to which the interest is attributable, or (iii) is entitled to the interest payable for the main purpose or one of the main purposes to avoid taxation for another person, or (iv) is not considered to be the recipient of the interest in its jurisdiction of residence because such jurisdiction treats another (lower tier) entity as the recipient of the interest (a hybrid mismatch), or (v) is not treated as resident anywhere (also a hybrid mismatch), all within the meaning of the Withholding Tax Act 2021 (*Wet bronbelasting 2021*).

Taxes on Income and Capital Gains

Residents

Resident entities

An entity holding Notes which is or is deemed to be resident in the Netherlands for Dutch corporate tax purposes and which is not tax exempt, will generally be subject to Dutch corporate tax in respect of income or a capital gain derived from the Notes at the prevailing statutory rates (up to 25 per cent. in 2021).

Resident individuals

An individual holding Notes who is or is deemed to be resident in the Netherlands for Dutch income tax purposes will be subject to Dutch income tax in respect of income or a capital gain derived from the Notes at the prevailing statutory rates (up to 49.50 per cent. in 2021) if:

- (i) the income or capital gain is attributable to an enterprise from which the holder derives profits (other than as a shareholder); or
- (ii) (the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) as defined in the Income Tax Act 2001 (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

If neither condition (i) nor (ii) applies, such individual will generally be subject to Dutch income tax on the basis of a deemed return, regardless of any actual income or capital gain derived from the Notes. For 2021, the deemed return ranges from 1.90 per cent. to 5.69 per cent. of the fair market value of the individual's net assets exceeding a certain threshold as at the beginning of the relevant fiscal year (including the Notes). Subject to application of certain allowances, the deemed return will be taxed at the prevailing statutory rate (31 per cent. in 2021).

Non-residents

A holder of Notes which is not and is not deemed to be resident in the Netherlands for the relevant tax purposes will not be subject to Dutch taxation on income or a capital gain derived from the Notes unless:

- (i) the income or capital gain is attributable to an enterprise or part thereof which is either effectively managed in the Netherlands or carried on through a permanent establishment (*vaste inrichting*) or a permanent representative (*vaste vertegenwoordiger*) taxable in the Netherlands and the holder derives profits from such enterprise (other than by way of the holding of securities); or
- (ii) the holder is an individual and the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) in the Netherlands as defined in the Income Tax Act 2001 (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

Gift and Inheritance Taxes

Dutch gift or inheritance taxes will not be levied on the occasion of the transfer of Notes by way of gift by, or on the death of, a holder of Notes, unless:

- (i) the holder is or is deemed to be resident in the Netherlands for the purpose of the relevant provisions; or
- (ii) the transfer is construed as an inheritance or gift made by, or on behalf of, a person who, at the time of the gift or death, is or is deemed to be resident in the Netherlands for the purpose of the relevant provisions.

Value Added Tax

There is no Dutch value added tax payable by a holder of Notes in respect of payments in consideration for the issue or acquisition of Notes, payments of principal or interest under the Notes, or payments in consideration for a disposal of Notes.

Other Taxes and Duties

There is no Dutch registration tax, stamp duty or any other similar tax or duty payable in the Netherlands by a holder of Notes in respect of or in connection with the execution, delivery and/or enforcement by legal

proceedings (including any foreign judgment in the courts of the Netherlands) of the Notes or the performance of Essity Capital's obligations under the Notes.

Residence

A holder of Notes will not be and will not be deemed to be resident in the Netherlands for Dutch tax purposes and, subject to the exceptions set out above, will not otherwise become subject to Dutch taxation, by reason only of acquiring, holding or disposing of Notes or the execution, performance, delivery and/or enforcement of Notes.

The proposed financial transactions tax ("FTT")

On 14 February 2013, the European Commission published a proposal (the "**Commission's proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**"). However, Estonia has ceased to participate.

The Commission's proposal has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes should, however, be exempt.

Under the Commission's proposal, FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which, remains unclear. Additional EU Member States may decide to participate.

Prospective holders of Notes are advised to seek their own professional advice in relation to the FTT.

FATCA

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a "foreign financial institution" may be required to withhold on certain payments it makes ("**foreign passthru payments**") to persons that fail to meet certain certification, reporting, or related requirements. A number of jurisdictions (including the jurisdiction of the Issuers) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply prior to the date that is two years after the publication of the final regulations defining "foreign passthru payment". Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Notes.

SUBSCRIPTION AND SALE

The Dealers have, in an amended and restated programme agreement dated 7 May 2021 (such programme agreement as further supplemented and/or restated from time to time being the "**Programme Agreement**"), agreed with the Issuers a basis upon which they or any of them may from time to time agree to purchase Notes. The Dealers are entitled in certain circumstances to be released and discharged from their obligations under a subscription agreement prior to the closing of the issue of any relevant Notes. Any such agreement will extend to those matters stated under "*Form of the Notes*" and "Terms and Conditions of the Notes". In the Programme Agreement, the Issuers and the Guarantor, if applicable, have agreed to reimburse the Dealers for certain of their expenses in connection with the establishment and any future update of the Programme and the issue of Notes under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith.

United States

The Notes and the Guarantee of the Notes have not been, and will not be, registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States and may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act.

The Bearer Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the United States Internal Revenue Code and regulations thereunder.

Each Dealer has agreed, and each further Dealer appointed under the Programme will be required to agree, that, except as permitted by the Dealer Agreement, it will not offer, sell or deliver Notes, (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution of the Notes comprising the relevant Tranche within the United States or to, or for the account or benefit of, U.S. persons, and such Dealer will have sent to each dealer to which it sells Notes during the distribution compliance period relating thereto, a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons.

In addition, until 40 days after the commencement of the offering of Notes comprising any Tranche, any offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act and in accordance with any applicable securities laws of any state or other jurisdiction of the United States.

This Base Prospectus has been prepared by the Issuers and the Guarantor for use in connection with the offer and sale of the Notes outside the United States. The Issuers, the Guarantor and the Dealers reserve the right to reject any offer to purchase the Notes, in whole or in part, for any reason. This Base Prospectus does not constitute an offer to any person in the United States. Distribution of this Base Prospectus by any non-U.S. person outside the United States to any U.S. person or to any other person within the United States, is unauthorised and any disclosure without the prior written consent of the Issuers and/or the Guarantor of any its contents to any such U.S. person or other person within the United States is prohibited. Terms used in this section and not otherwise defined herein have the meanings given to them by Regulation S.

Prohibition of Sales to EEA Retail Investors

Unless the applicable Final Terms in respect of any Notes specifies the "*Prohibition of Sales to EEA Retail Investors*" as "*Not Applicable*", each Dealer has represented and agreed, and each further Dealer appointed under the Programme that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the applicable Final Terms in relation thereto to any retail investor in the European Economic Area. For the purposes of this provision the expression "retail investor" means a person who is one (or more) of the following: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or a customer within the meaning of the Insurance Distribution Directive, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II.

If the Final Terms in respect of any Notes specifies "*Prohibition of Sales to UK Retail Investors*" as "*Not Applicable*", in relation to each Member State of the European Economic Area, each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to the public in that Member State except that it may make an offer of such Notes to the public in that Member State:

- (a) *Approved prospectus*: if the Final Terms in relation to the Notes specify that an offer of those Notes may be made other than pursuant to Article 1(4) of the Prospectus Regulation in that Relevant State (a "**Non-exempt Offer**"), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant State or, where appropriate, approved in another relevant State and notified to the competent authority in that Relevant State, **provided that** any such prospectus has subsequently been completed by the Final Terms contemplating such Non-exempt Offer, in accordance with the Prospectus Regulation, in the period beginning and ending on the dates specified in such prospectus or Final Terms, as applicable and the Relevant Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;
- (b) *Qualified Investors*: at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (c) *Fewer than 150 offerees*: at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the relevant Issuer for any such offer; or
- (d) *Other exempt offers*: at any time in any other circumstances falling within Article 3(2) of the Prospectus Regulation,

provided that no such offer of Notes referred to in (b) to (d) above shall require the Issuers or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression an "**offer of Notes to the public**" in relation to any Notes in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

Prohibition of sales to UK Retail Investors

For the purposes of this provision the expression "retail investor" means a person who is one (or more) of the following:

- (i) a retail client as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the EUWA; or
- (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA.

If the Final Terms in respect of any Notes does not include the legend "*Prohibition of Sales to UK Retail Investors*", in relation to the United Kingdom, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to the public in the United Kingdom except that it may make an offer of such Notes to the public in the United Kingdom:

- (A) at any time to any legal entity which is a qualified investor as defined in Article 2 of the UK Prospectus Regulation;
- (B) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in Article 2 of the UK Prospectus Regulation) in the United Kingdom subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Relevant Issuer for any such offer; or
- (C) at any time in any other circumstances falling within section 86 of the FSMA,

provided that no such offer of Notes referred to in (A) to (C) above shall require the Relevant Issuer or any Dealer to publish a prospectus pursuant to section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of the UK Prospectus Regulation.

For the purposes of this provision, the expression an "**offer of Notes to the public**" in relation to any Notes means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes and the expression "**UK Prospectus Regulation**" means Regulation (EU) 2017/1129 as it forms part of UK domestic law by virtue of the EUWA.
